## Objective

---

I am a highly motivated and goal-driven web developer with a strong work ethic and over a year experience seeking for an entry-level position. I am deeply knowledgeable in a variety of computer languages such as HTML5, JavaScript and PHP. I also understand principles and techniques of initial website construction and ongoing maintenance. I am also a strong communicator who is flexible with scheduling my work to fit the organisation's and client's objectives.

## Work Experience

---

Lake Creations

02/2022 – 10/2022

Front-end Web developer

Resolved website issues based on external reports with 100% efficiency.

Collaborated with senior Web developer to design the company's blog.

Revamped the company's blog with website modernization efforts to create a better overall user experience and incorporated SEO optimization thereby increasing blog visits from unique users.

## Projects

---

Finance website

09/2022 – 10/2022

Early Money

A responsive finance website which can be used to perform on-the-go financing transactions such as creating an account, login, deposits, withdrawals and transfers.

Designed the website with web technologies such as HTML5, CSS3 and bootstrap to give it an appealing and responsive user interface.

Programmed the server-side logic using PHP, and deployed MYSQL for the database.

Fixed specific issues and bugs on the website.

Responsive Quiz Application

09/2022 – 09/2022

Awesome quiz

A responsive user-friendly online quiz application which allows users to answer questions within a stipulated time and displays the scores after the test.

Designed the user interface using HTML5 and CSS3.

JavaScript programming language was used to build the logic side.

#### Calculator Application

09/2022 – 09/2022

##### Scientific Calculator App

A responsive scientific calculator application which can perform simple and complex mathematical operations.

The user interface was designed using HTML5 and Bootstrap.

JavaScript logical operators and extensive use of DOM was used to programme the logic functions of the calculator.

#### Portfolio website

09/2022 – 10/2022

##### Portfolio

Built and designed my portfolio website using html, css and JavaScript for responsiveness. I also added web icons from font awesome to beautify the website.
