## PROFESSIONAL SUMMARY

---

I am a Web Developer with 3 years of experience in the Technology domain, who is proficient in JavaScript and PHP development. I am experienced in building websites, working with databases and site architecture which has made me well-versed in numerous programming languages including PHP, JavaScript, and SQL. I am excited to bring my skills and experience to a dynamic, forward-thinking company where I can drive meaningful impact.

## WORK EXPERIENCE

---

### Lake Creations

June 2022 – November 2022

*web developer*

*Abuja, Nigeria*

- Collaborated with senior Web developer to design the company's website.
- Resolved company's website issues based on external reports
- Revamped the company's blog with website modernization efforts to create a better overall user experience and incorporated SEO optimization thereby increasing blog visits from unique users.

### Early code Tech Institute

February 2022 – June 2022

*Backend developer Intern*

*Abuja, Nigeria*

- Collaborated with a team in developing a finance website where users can create an account, deposit money, withdraw and transfer to other users using Web technologies like PHP, JavaScript and MySQL.
- Developed frontend Web application projects using HTML5, CSS3, Javascript and CSS libraries such as Bootstrap and Tailwind.
- Learned how to use SASS for CSS development.
- Built an online bookstore where users can shop for books, add them to a card and make payments online using HTML5, CSS and javascript for the client side and PHP and MySql for the server side.

### Free Lance

June 2022 – Present

- Built over 10 professional websites for clients
- Provided ongoing client support as a web developer
- Made modifications to old codes to fit new standards
- Revamped the UI of existing websites to give it a vibrant look

## SKILLS

---

**Front-end web development:** HTML, CSS, Bootstrap, Javascript, Sass

**Back-end web development:** PHP, Mysql, Laravel, Node.js, Git&Github

## PROJECTS

---

**Finance Website** | HTML5, CSS, Bootstrap, Javascript, PHP, MySQL

- A responsive finance website which can be used to perform on-the-go financing transactions such as creating an account, logging in, deposits, withdrawals and transfers.
- The website was designed with Web technologies such as HTML5, CSS3 and bootstrap to give it an appealing and responsive user interface.
- Programmed the server-side logic using PHP, and deployed MYSQL for the database. Fixed specific issues and bugs on the website.

**Responsive Quiz web application** | HTML5, CSS, Javascript

- An online quiz application which allows users to take test questions within a stipulated time and displays the scores after the test.
- Designed the user interface using HTML5 and CSS3. JavaScript programming language was used to build the logic side.

**Scientific Calculator** | HTML5, CSS, Javascript

- A responsive scientific calculator application which can perform simple and complex mathematical operations.
- The user interface was designed using HTML5 and Bootstrap.
- JavaScript logical operators and extensive use of DOM were used to programme the logic functions of the calculator.
