- Provided ongoing client support as a web developer
- Made modifications to old codes to fit new standards
- Revamped the UI of existing websites to give it a vibrant look

SKILLS

Front-end web development: HTML, CSS, Bootstrap, Javascript, Sass

Back-end web development: PHP, Mysql, Laravel, Node.js, Git&Github

PROJECTS

Finance Website | HTML5, CSS, Bootstrap, Javascript, PHP, MySQL

- A responsive finance website which can be used to perform on-the-go financing transactions such as creating an account, logging in, deposits, withdrawals and transfers.
- The website was designed with Web technologies such as HTML5, CSS3 and bootstrap to give it an appealing and responsive user interface.
- Programmed the server-side logic using PHP, and deployed MYSQL for the database. Fixed specific issues and bugs on the website.
- designed User registration and login system
- Admin dashboard to approve deposits, withdrawals and transfers.

Responsive Quiz web application | HTML5, CSS, Javascript

- An online quiz application which allows users to take test questions within a stipulated time and displays the scores after the test.
- Designed the user interface using HTML5 and CSS3. JavaScript programming language was used to build the logic side.

Online Book Store | HTML, CSS, JavaScript, PHP, Mysql

- Built a User registration and login system.
- Designed a Product catalogue with categories.
- Added Search functionality to find books by title and author.
- Shopping cart to add, edit, and remove products before checkout.
- Admin dashboard to manage products, orders, customers, and reports
