## PROFILE SUMMARY

I am a highly motivated and goal-driven web developer with a strong work ethic seeking for an entry-level position. I am deeply knowledgeable in a variety of computer languages such as HTML5, JavaScript and PHP and also understands principles and techniques of initial website construction and ongoing maintenance. I am a strong communicator who is flexible with scheduling my work to fit my client's desired schedule.

## Software Projects

- Programmed an interactive quiz app using HTML5, CSS and JavaScript which allows users answer each question within a stipulated time and displays the result after the test.
- Programmed a responsive fintech website which can be used to perform on-the-go transactions such as deposits, withdrawals, transfers etc using php and MySQL for database design.
- Completed several client and server-side projects with Php while utilizing database.
- Created a responsive PlayStation ordering website with web technologies like HTML5, CSS3 and JavaScript.
- Collaborated with other web developers to complete tasks and achieve optimal results.

## Professional Skills

- Knowledge of programming languages, including HTML, JavaScript, CSS and PHP
- Strong analytical, problem-solving skills
- Proficient knowledge of MySQL and MS Access for database design
- Well-versed in multiple operating systems such as windows, Linux and Mac
- Familiarity with web frameworks such as React and Bootstrap
- Programming Languages: JavaScript and PHP
